Highlights

- Bachelor of Science in Computer Science
- 3.5+ years of object-oriented programming
- 1.5+ years of experience in Information Technology

Education

B.S. in Computer Science   **September 2014 – June 2018**

California State University, San Bernardino   San Bernardino, CA

- Summa Cum Laude
- 3.9 GPA

Employment History

IT Intern   **September 2016 – Present**

San Bernardino City Unified School District   San Bernardino, CA

Starting at the help desk, I gained experience helping employees with computer software and hardware problems over the phone and on the spot. By showing diligence in my work, I was able to join the programming team. I increased efficiency my first day on the team by suggesting and setting up version control. I programmed a web application using ASP.NET and SQL Server that allows employees to log in and enter school sites visited, calculates and tracks miles driven, and lets managers generate employee reports. I have continued programming web applications for the district by updating existing applications and developing an application tracking positions and budgets for the fiscal services department.

Physics Grader   **Fall 2016**

California State University, San Bernardino   San Bernardino, CA

By grading with detail and consistency, I was entrusted to proctor exams. Honed math and physics skills essential to programming.

Skills

- Windows, Mac, Linux
- Android & iOS
- C++, Java, Visual Basic, SQL
- Git
- HTML & CSS
- Android Studio & Visual Studio
